

Experiment Instructions

Phase 1

Thank you very much for participating in our experiment. In the first phase, the task is very simple. We have chosen 11 locations in the surrounding area of IFGI with photos attached. Your task is to find them in any order that you prefer. Once you find each location, please try to write down the **street number of this location** or **a nearby location** under each picture.

When all 11 locations are found, please come back to the classroom to start the second phase of this experiment.

It will take you about 40 mins to walk around in order to find all **11** locations. Please note that you will be walking within an area formed by the following boundaries:

Inselbogen (North)

Kappenberger (West)

Gut Insel/Ronnebergweg (South)

Hammerstr. (East)

If you see **Weseler Str.**, **Grevingstr.** or **Hammerstr.**, you have been walked too far. Please turn around immediately!

We will provide each group with a GPS to record the route you walked, please take it with you the entire time while you are outside and return it to the classroom.

You can take this instruction with you.

But please do not use your smart phone to acquire your location or check any map.

Please let the experimenter know if you have any questions.

If not, please turn to next page and start looking for the locations that match with the photos.

Location 1: Public high school (Berufskolleg)

Street # _____

Location 2: Bike shop

Street # _____

Location 3: Sparkasse Bank Branch (not the big office building)

Street # _____

Location 4: Restaurant

Street # _____

Location 5: Bakery

Street # _____

Location 6: Kiosk

Street # _____

Location 7: Children's play ground

Street # _____

Location 8: Italian Bistro

Street # _____

Location 9: Primary School

Street # _____

Location 10: Supermarket REWE

Street # _____

Location 11: Pharmacy

Street # _____

If you have found all 11 locations, you have completed this phase of this experiment. Please return to the classroom to complete the rest of our practice.

Experiment Instructions

Phase 2

Congratulations on completing the first phase of this experiment. In this phase, you will be asked to complete several tasks using a pen or pencil on paper sheets. As this experiment will be carried out on a grouped base, we will give you the same amount of time to work on each task.

Please fill in some basic information about yourself below.

Name: _____

Sex: _____

Age: _____

Major/Discipline: _____

Years lived in Muenster: _____

If you have any questions regarding tasks in this phase, please do not hesitate to let us know.

If you feel ready, please wait for our instructions regarding the start of these tasks.

Task 1

In this task, you are asked to draw a sketch map of the area that you have just visited on the next page. Please try to recall **as many details as possible** and reflect them on your sketched map. These details should include the **11 locations** you have visited, **streets, buildings, areas**, or any **objects** that you could remember from the experiment in phase 1.

Please take your time as you have 20 mins maximum to complete it.
